#### Administrative, Personnel and Resident Care Requirements

19 CSR 30-85.042(27) shall be waived to the extent that the provisions require new and existing intermediate care and skilled nursing facilities to comply with the testing of residents and staff/employees for tuberculosis as set forth in 19 CSR 20-20.010 through 19 CSR 20-20.100. **Note: Facilities may employ individuals prior to completing tuberculin testing, however, they must complete an assessment for signs and symptoms of possible TB. Individuals showing signs and symptoms shall be instructed to see their physician or local public health department, prior to working in the facility. Once the waiver ends, employees or residents who required testing and were not tested, must be tested. SLCR expects the testing to be completed within a *reasonable* time period, *usually* within 30 days.**
