

**Attention Missouri Nursing Homes!**

## **Register for a Free In-Person Health Ambassador Training**

*Sessions Will Be Held in Jackson/Cape Girardeau, Saint Louis, and Springfield*

Don't miss this opportunity to register two individuals from your nursing home for a free regional **in-person Health Ambassador Training** in Missouri being presented by the Health Quality Innovation Network (HQIN) and Johns Hopkins University.

This training uses the Be REAL framework which focuses on building trust by forming relationships, targeting resources responsive to a facility's population, and always keeping the door open for interactions to improve health outcomes such as immunizations and infection prevention.

**Two people may register per facility and a maximum of 40 participants will be allowed for each session.** Recommended participants include all staff, such as:

- Nurses
- Infection Prevention Nurses
- Nursing assistants
- Social services
- Dietary
- Environmental services
- Also, please consider sending a resident, family member or volunteer.

These sessions will be interactive and include group discussion, small-group activities, games, and an opportunity to practice what has been learned.

Click on the hyperlink of the city in which you want to attend to reserve your spot today. **You will not want to miss this opportunity!**

**(All Sessions Will Be Held from 9:30 a.m. to 12:30 p.m.)**
